

# Pre-Code Hollywood

Make sure you find any of these film titles below from 1930-34 and not a remake or something with the same title from a later date. We will watch Scarface and Baby Face in class so if you are hybrid you can focus on those but you are welcome to select others if you become intrigued by this interesting genre/period. I have some of them on DVD if you'd like to check them out. Also, if you find any films with Barbara Stanwyck or Norma Shearer in them from 1930-34 they will almost for sure fall into the "Pre-Code" category. I know Amazon Prime has a number of films if you have access and search for either actress. Not sure about other streaming services.

Public Enemy	Baby Face
The Divorcee	Red-Headed Woman
A Free Soul	Waterloo Bridge
Scarface (original)	Three on a Match
Night Nurse	Female

**After screening two of these films (remember that if you are a hybrid student we will watch Scarface and Babyface in class) you are to write two reviews using the "How to Write a Film Review Assignment" and email them to me or turn them in in person.**
